

EVANCO is specially made to suite any outdoor barriers under all weather condition.

It smartly fit onto all 50 mm mesh chain link fences and on any WELDED MESH especially the 50 mm x 150 mm WELD MESH.

Our blinds can last a long time under all weather conditions.

It is best use to cover up important installations from out-side views.

It is the best alternative over installing perforated or full plated panels. It blends well with the environment too.
