

FANG*CO™ – CONCERTINA BARBED TAPE (RAZOR WIRE).

Border Fencing

High Security Border Fencing

FANG*CO™ – TRESPASSING IS NOT AN OPTION.

Concertina Barb Tape (CBT) or sometimes refer to as Razor Blade or Razor Wire.

Galvanized or Stainless Steel (Military Specifications)

Be it a Military Standard fit for use as a barrier in Battle fields, or 'True Blooded' sparkling Stainless Steel permanently fixed onto perimeter fences of security institutions or as a Border fencing in weather beaten terrain... call us.

Electrical and Electronic Sensors system can be incorporated.

Why Concertina Barbed Tape and why FANG*CO.

Concertina Barbed Tape (CBT) is one of the best wire obstacles. It provides **HEIGHT, DEPTH, ENTANGLEMENTS** and **RAZOR SHARP CUTTING** threat.

Compare to other form of 'TOPEE' (the top of a vertical fence) even if the Fence collapses flat onto the ground, the CBT will still fall onto the ground with a height, depth, entanglements and razor sharp obstacle.

Standard / Quality

*Certification meeting US MIL STD
*AFA (American fencing Association)
BBA (British Board of Agreement)
welcome request for our Test Certification's
