## GERMISOL™

– Hospital Grade Disinfectant.

Very often we see label such as 'KILL 99.9%' yet we wonder why we don't see these brands among those use in our Doctor clinic or in the Hospital.

There are a thousand and one germs which can be killed with just simple soap and plain water. But there a handful will just do not go away easily with unqualified germicides.

We also supply Heavy Industry Grade COAL TAR Disinfectant.

BLACK Disinfectant Fluid - WHITE Disinfectant Fluid

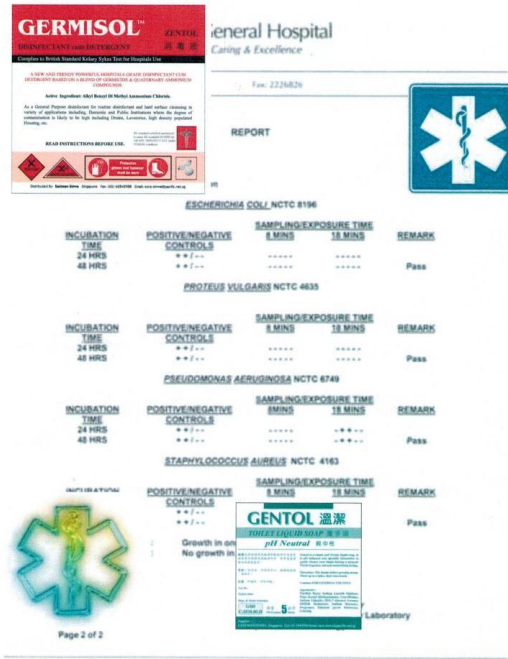

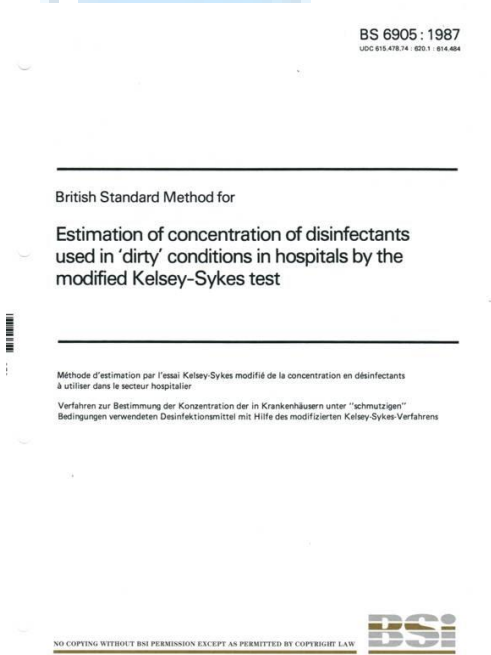

Hospital Grade disinfectant GERMISOL.  
Hand Sanitizer.

Talk to us, we do contract manufacturing and House branding.

Gentol is a classic and Trendy liquid soap. It is pH balanced and specially formulated to gently cleanse your hands leaving a pleasant Floral fragrance and soft moisturising feeling.

Directions: Wet hands before pressing pump. Work up to a lather, then rinse hands.

Caution: FOR EXTERNAL USE ONLY.

Ingredients:  
Purified Water, Sodium Laureth Sulphate, Palm Kernel Diethanolamine, Coco-Betaine, Sodium Chloride, PEG-7 Glyceryl Cocoate, DMDM Hydantoin, Sodium Benzoate, Fragrance, Ethylene glycol Distearate, Coloring.

## GENTOL™ – toilet Liquid Soap

It is common that the Liquid Soap you washed, have the 'smell' of a Soap, the viscosity like a liquid soap and the familiar foams it produces, yet the cleaning effect is less than what you expected it to be.

Today they are products call 'synthetics' which can give you almost every 'smell' one can imagine; the thickener giving the soapy effect and the foams which all can be added to make a very convincing soap but have no contribution to it cleaning effect.

Talk to us, we do contract manufacturing, House Branding or your own Branding.
